

The Secrets Of The Angels

maybe there is an explanation for everything who knows? ...
but sometimes it is nicer not to know ...

maybe that breath of unawareness that makes us more helpless ... is even nicer ...

maybe the Angels know everything for us ...
and they guide us towards a path designed for us ... and for our steps ...

and sometimes it happens to meet and like each other ...
like when you meet ... a different Angel ...

.....

the fears are many ... and you feel them right away ...
and you know right away ... that it is him ...

you see him from the wings ...
and you find yourself with all your fears ... and your worries ...
but that's how it is ...

the wings first they touch each other ... without even wanting to ...
then they want to tell about themselves ... about their secrets ...

and what do you do ? ...

maybe you don't even know it ... but you know that you are meeting an Angel ...

so whatever happens you will have to put all the care you have ...
all the your sensitivity ...

without asking for anything without demanding because you know ...
that it is pure Spirit ...

you don't make plans you don't think ... but you feel like a king ...
you just but that's ... how it is ...
and you give thanks for this dream ... that has decided to choose you ...

you can't hurt it, it doesn't even cross your head, you only think about flying ...

your head flies ... and your heart too ... as well as the awareness that you are dealing with an Angel ...
and as such you cannot cage it ... indeed you hope that it flies as high as it can ...

until it shines with its own light like a comet inaccessible ...
that traces a path that illuminates your heart ... and fills your soul ...

it must be enough for you ... and don't ask you ... if it is too much for you ... too ... because you exist too ...
too ... too ... too ... too ... too ... too ... too ... too ... too ... too ... too ... too ... too ...

the only thing left for you ... is to be worthy ...

try to be so then ... and give the best of yourself ...
that's all you can do ... do ... do ... do ... do ...

then do it now ... don't wait ...

gooooooooooooooooo ... oooooooooooooooooo ... gooooooooooooooooo ... oooooooooooooooooo ...
gooooooooooooooooo ... oooooooooooooooooo ...
